

SRI SATHYA SAI INSTITUTE OF HIGHER LEARNING

ANANTAPUR CAMPUS

CIE-III

NAME: Kethana Sai Pranavi Atmuri

REGD NO: 24020112007

CODE: UCSH 503

PAPER TITLE: SOFTWARE LAB IN JAVA

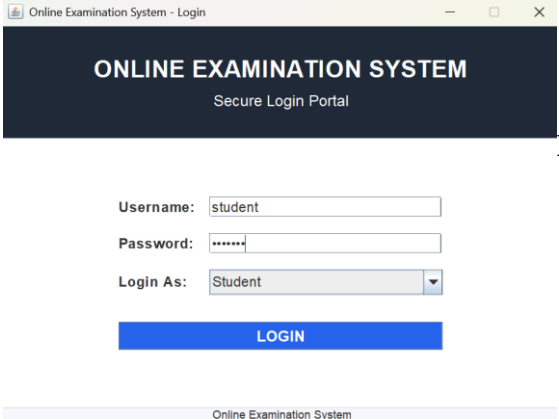

DATE OF SUBMISSION : 05 OCTOBER 2026

TEACHER INCHARGE: Ms.CHERUKUTHOTA DIVYASREE

TITLE OF PROJECT: ONLINE EXAMINATION SYSTEM

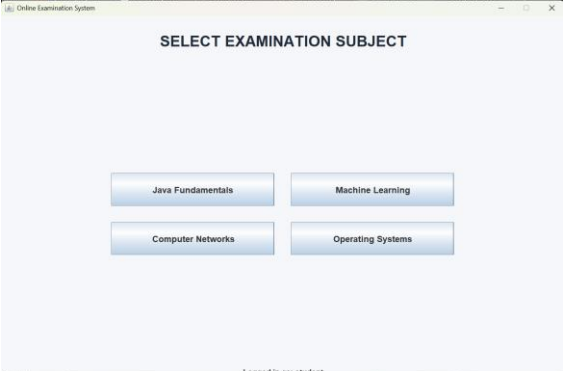

OUTPUTS

Student Login Interface

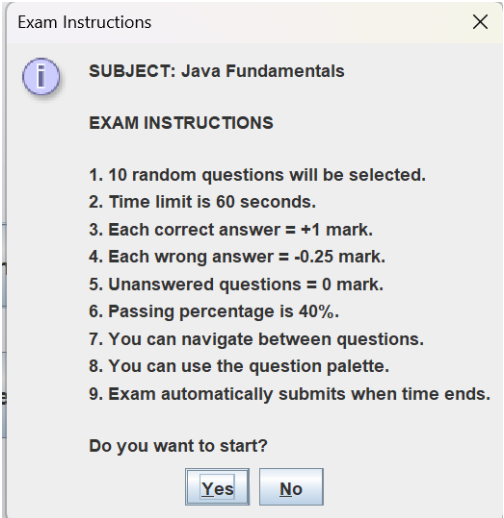

The screenshot shows a web browser window titled "Online Examination System - Login". The main heading is "ONLINE EXAMINATION SYSTEM" with the subtitle "Secure Login Portal". Below this, there are three input fields: "Username:" with the value "student", "Password:" with masked characters "*****", and "Login As:" with a dropdown menu showing "Student". A blue "LOGIN" button is positioned below the input fields. At the bottom of the page, a footer bar displays "Online Examination System".

Student Subject Selection Interface

The screenshot shows a web browser window titled "Online Examination System". The main heading is "SELECT EXAMINATION SUBJECT". Below this, there are four buttons arranged in a 2x2 grid: "Java Fundamentals", "Machine Learning", "Computer Networks", and "Operating Systems". At the bottom of the page, a footer bar displays "Logged in as: student".

Message for confirmation:

The screenshot shows a dialog box titled "Exam Instructions". It contains an information icon (i) and the text "SUBJECT: Java Fundamentals". Below this, the heading "EXAM INSTRUCTIONS" is followed by a list of nine numbered instructions:

1. 10 random questions will be selected.
2. Time limit is 60 seconds.
3. Each correct answer = +1 mark.
4. Each wrong answer = -0.25 mark.
5. Unanswered questions = 0 mark.
6. Passing percentage is 40%.
7. You can navigate between questions.
8. You can use the question palette.
9. Exam automatically submits when time ends.

Below the list, the text "Do you want to start?" is displayed, followed by two buttons: "Yes" and "No".

Sample Questions

Online Examination System

Student: student Subject: Java Fundamentals Time: 52

Question 1 / 10

Which symbol is used to end a Java statement?

☐ A. :

☐ B. .

☒ C. ;

☐ D. ,

Display of Result:

A dialog box titled "Final Result" with a close button (X) in the top right corner. It features an information icon (i) in a circle on the left. The content is framed by dashed lines and includes the following text:

EXAM RESULT

Student : student
Subject : Java Fundamentals

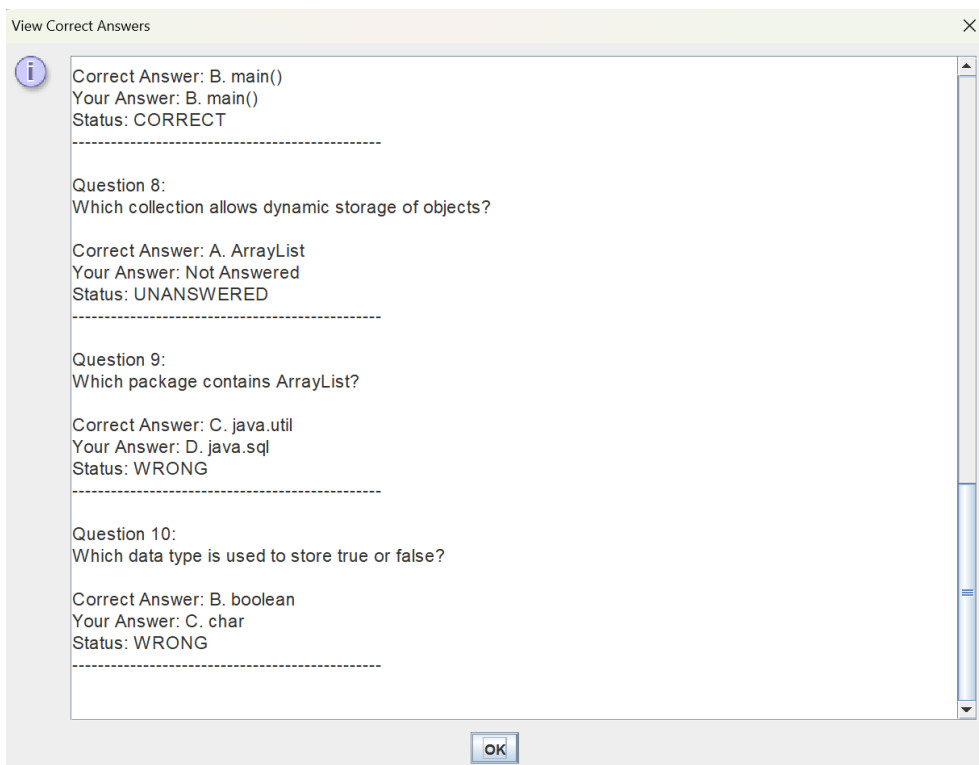

Total : 10
Correct : 7
Wrong : 2
Unanswered : 1

Score : 6.50 / 10
Percentage : 65.00%
Result : PASS

Correct: +1 mark
Wrong: -0.25 mark
Unanswered: 0 mark

An "OK" button is located at the bottom center.

Review answers

A dialog box titled "View Correct Answers" with a close button (X) in the top right corner. It features an information icon (i) in a circle on the left. The content is framed by dashed lines and includes the following text:

Correct Answer: B. main()
Your Answer: B. main()
Status: CORRECT

Question 8:
Which collection allows dynamic storage of objects?

Correct Answer: A. ArrayList
Your Answer: Not Answered
Status: UNANSWERED

Question 9:
Which package contains ArrayList?

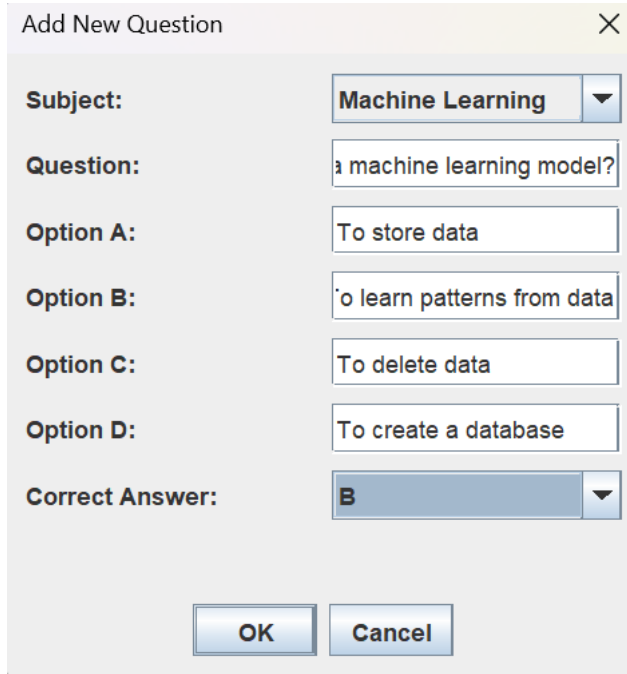

Correct Answer: C. java.util
Your Answer: D. java.sql
Status: WRONG

Question 10:
Which data type is used to store true or false?

Correct Answer: B. boolean
Your Answer: C. char
Status: WRONG

An "OK" button is located at the bottom center.

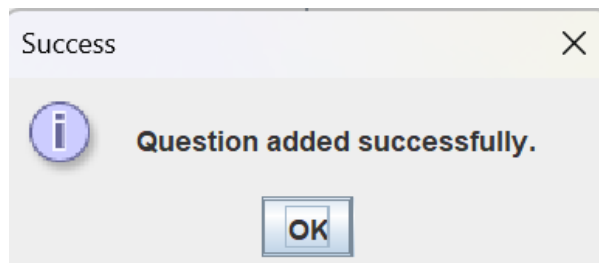

Add Question Interface

A screenshot of a 'Add New Question' dialog box. It contains the following fields: 'Subject' with a dropdown menu showing 'Machine Learning'; 'Question' with a text box containing 'a machine learning model?'; 'Option A' with a text box containing 'To store data'; 'Option B' with a text box containing 'o learn patterns from data'; 'Option C' with a text box containing 'To delete data'; 'Option D' with a text box containing 'To create a database'; and 'Correct Answer' with a dropdown menu showing 'B'. At the bottom are 'OK' and 'Cancel' buttons.

Subject:	Machine Learning
Question:	a machine learning model?
Option A:	To store data
Option B:	o learn patterns from data
Option C:	To delete data
Option D:	To create a database
Correct Answer:	B

Question Added Successfully Interface

Student Login: The Student Login module authenticates students using a username, password, and role. After successful authentication, the student can select a subject and attend a randomly generated examination consisting of 10 questions. The system provides navigation, a timer, negative marking, automatic submission, result calculation, and answer review.

Admin Login: The Admin Login module authenticates the administrator separately from the student. After successful authentication, the administrator can access the Admin Panel, view examination result history, add new questions, refresh the displayed information, and logout from the system. Both login modules use the MySQL database for authentication.
